

Summer Solstice

D Dsus Gsus D
Now the time for long-walk meadows
G A G A
Now the summer, now the song
D Gsus G D
Borne from dawn 'til evening shadows
G A G A Asus A Asus
Sweetening scents grow lush and strong

Cast we off the cloaks of winter
Worn through springtime's sudden chill
Warm in silence, cool light banter
Bring me 'round your cup to fill.

Chorus: G A G D
Let us drink to love in summer
G A G A
All that shines and blossoms fair
G A G D
Toast it with the wine of pleasure
G A G A
Warm the sunlight in my hair.

Rise we in the rose-hued morning
Greet the sun that warms the day
Fill the air with sounds of singing
Laugh like children at their play

Find delight in every hour
Love and joy to fill our days
Newly-sown is now to flower
'Tis the solstice cup we raise CH

Let us drink to love in summer

Time in autumn to be wise

G A G D

Toast it with the wine of pleasure

Warmed by sunlight in your eyes.

Now the summer, now the song... Asus A Asus
